Will It Make a Boom?

"Did it ever occur to you," said a dry goods man the other day, "what a great oom John Wanamaker's wholesale busiboom John Wanamaker's Wholesale Dusiness must be having nowadays? There are some sixty or seventy thousand postoffices in the country and I suppose that fifty thousand of them are in small country stores. Don't you think that when John Wanamaker's drummer comes round to one of these stores he has a pretty good chance of getting an order? I'll bet that there are not a hundred such postmaster storekeepers within a thousand miles of Philadelphia who do not buy all they can at Wanamaker's nowadays, and even in more distant parts of the country the postmasters will stretch a point whenever they can to send to Philadelphia for their goods. Suppose a man wants to be reappointed, don't you think he will imagine that it will be a good thing for him to be able to refer Postmaster General Wanamaker for information as to his credit and business standing? Of course, the postmasters in ninety-nine cases out of a hundred will be wrong in it, but they have the idea all the same that Wanamaker will know the name and all about every man who buys goods of him, and they will act accordingly. It will be Wanamaker's own fault if he hasn't the largest wholesale bustness in the country within the next four years."—[New York Sun. ness must be having nowadays? There are
